## Feedback on the Herzl Educational Kit

Dear Facilitator, Teacher and Educator,

A great deal of energy has gone into the preparation of this educational kit and it is very important to us to receive your input on its implementation with participants, in order to establish your comfort level with its use and with the subject matter.

We would be grateful if you would take a few minutes to answer the following questions:

To what extent is the educational kit clear and easy to use?

---

---

Which workshops did you choose to use and why did you select these?

---

---

Please identify your target population for the workshops?

---

Did you teach or use these resources in connection with any other major activity?

---

---

What is your opinion of the workshops you implemented? Were the methodological approach and subject matter appropriate for your target population?

---

---

Do you have any related recommendations?

---

---

General observations, additional comments:
